

Wonders of Sinaia

WALKING THE LINE

About the city we visited.

Sinaia- one of the most beautiful mountain resorts in Romania. It presents to us a rich cultural and social past. The former residence of the kings, and bearing a holy name, that of Mount Sinai, it blends the beauty of nature with lessons of architectural art.

Boarding house "La cristina"

- This school trip gave us the opportunity to meet new people, make new friends, learn new valuable lessons about the world we live in, and helped us to develop our organizational capabilities and field of knowledge.
- To reach the destination we took the train in the morning, where we spend the following 6 hours, only for us to arrive at the guest house at 12 o'clock. It was a lovely place with lovely people that took care of us.
- Tour itinerary: Craiova – Bucuresti – Sinaia and return.

“

Objectives

Period :28-30 May 2019

”

- Visiting – “Peles” Castle – “Cota 1400” – “Pelișor” Castle - Sinaia Monastery.
- hiking around Sinaia
- Outdoor activities
- Initiation and conducting of educational activities

Peleş Castle

Peleş Castle is a Neo-Renaissance castle in the Carpathian Mountains on an existing medieval route linking Transylvania and Wallachia, built between 1873 and 1914.

The rooms open to tourists are The Hall of Honour, The Imperial Suite, The Grand Armory or The Arsenal, The Small Armory, The Playhouse, The Florentine Room, The Moorish Salon and The Turkish Parlor.

Sinaia Monastery

- ❖ Situated in the Prahova Valley, the monastery gave its name to the nearby town of Sinaia. The monastery consists of two courtyards surrounded by low buildings.
- ❖ The Old Church was built in 1695. In 2006, it was closed to begin a restoration project to return it to its former beauty.
- ❖ This smaller structure of the Great Church was enlarged by the Board of Civil Hospitals during a period from 1897 to 1903. These efforts gave the building the appearance it has today.

The view

Another reason that made this trip so special and wonderful was the view.

Any place you would be, anywhere you would look there was a corner of nature that you could admire and keep in your heart!

The fun activities brought for the students special memories, new friends and new perspectives.

We had a lot of fun. We laughed, told jokes and spend a great time together!

Leaving is the hardes part.

- When the time to leave has come, we all were already tired.

But some of us kept the fun going!

I am confident to say that this trip taught us personal development, such as confidence, self-esteem, leadership and independent thinking. It helped us to create stronger bonds between students and teachers and offered students an opportunity to learn outside of the four walls of a classroom

Participated students from grades: X A, XI A

National College "Nicolae Titulescu"
